

Clifford Mark Musni

Senior Software Engineer

I specialize in building scalable, high-performance web applications with a strong focus on intuitive user experience and maintainable architecture. Leveraging modern frontend technologies, I transform complex requirements into clean, efficient, and user-centered solutions.

WORK EXPERIENCE

Senior Software Engineer Finastra Philippines Inc.

01/2021 - Present

Achievements/Tasks

- Design and develop scalable web applications using **React.js, TypeScript, Redux Toolkit, and Express**, ensuring performance and maintainability.
- Lead root cause analysis of complex production issues and deliver permanent technical solutions.
- Collaborate with Product Owners and cross-functional teams to translate business requirements into robust technical implementations.
- Drive sprint planning, estimation, and delivery within Agile environments.
- Mentor junior engineers and promote best practices in frontend architecture, state management, and code quality.

Senior Software Engineer Wonders Corporation

04/2020 - 12/2020

Achievements/Tasks

- Improved web application performance through code optimization, reducing load times and enhancing user experience.
- Refactored legacy components into modular, reusable structures to improve maintainability and scalability.

Application Development Senior Analyst Accenture Philippines

08/2018 - 03/2020

Achievements/Tasks

- Designed, built, and configured enterprise applications to meet evolving business and process requirements.
- Contributed to **Accenture Software for HCM**, a cloud-based document generation platform for HR operations.
- Translated functional requirements into scalable technical solutions and supported ongoing enhancements.

Software Developer JeonSoft Corporation

07/2014 - 08/2018

Achievements/Tasks

- Maintained and enhanced web applications using Ruby on Rails and ExtJS.
- Developed RESTful APIs and implemented mobile-responsive UI solutions.
